Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take. When this drug list (formulary) refers to “we,” “us” or “our,” it means WellCare/‘Ohana. When it refers to “plan” or “our plan,” it means 2017 WellCare/‘Ohana.

This document includes a list of the drugs (formulary) for our plan which is current as of 09/01/2016. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, premium and/or co-payments/coinsurance may change on January 1, 2018, and from time to time during the year.

WHAT IS THE WELLCARE CHOICE (HMO/HMO-POS), WELLCARE DIVIDEND (HMO/HMO-POS), WELLCARE DIVIDEND PRIME (HMO), WELLCARE ESSENTIAL (HMO/HMO-POS), WELLCARE PLUS (HMO), WELLCARE PREFERRED (HMO-POS), WELLCARE RX (HMO), WELLCARE VALUE (HMO/HMO-POS), WELLCARE ACCESS (HMO SNP), WELLCARE LIBERTY (HMO SNP), ‘OHANA LIBERTY (HMO SNP) COMPREHENSIVE FORMULARY?

A formulary is a list of covered drugs. WellCare/‘Ohana selects the drugs by working with a team of health care providers. The list contains the prescription medications we believe are a necessary part of a quality treatment program. WellCare/‘Ohana will generally cover the drugs listed in our formulary as long as:

1. the drug is medically necessary,
2. the prescription is filled at a WellCare/‘Ohana network pharmacy, and
3. other plan rules are followed.

For more information on how to fill your prescriptions, please see your Evidence of Coverage.

CAN THE FORMULARY (DRUG LIST) CHANGE?

In general, if you are taking a drug on our 2017 formulary that was covered at the beginning of the year, we will not stop or reduce coverage of the drug during the 2017 coverage year. However, there are some cases when we may stop or reduce coverage. These are:

- when a new, less expensive generic drug becomes available or
- when new negative information about the safety or effectiveness of a drug is released.

Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. For those members, it will remain available at the same cost share for the remainder of the coverage year. We think it’s important that you can continue to get the formulary drugs that were available when you chose our plan for the remainder of the coverage year. The only exceptions are for cases in which you can save additional money or we can ensure your safety.

When we make certain changes to our formulary, we must notify the members who will be

affected by the changes. This includes if we:

- remove drugs from our formulary;
- add restrictions on a drug such as prior authorization, quantity limits and/or step therapy;
- move a drug to a higher cost-sharing tier.

If we make any of these changes, we must notify affected members at least 60 days before the change goes into effect. We will also notify the member at the time he or she asks for a refill of the drug. In that case, the member will receive a 60-day supply of the drug.

If the Food and Drug Administration announces that a drug on our formulary is unsafe, or a drug manufacturer removes a drug from the market, we will immediately remove the drug from our formulary and notify members who take the drug.

The enclosed formulary is current as of 09/01/2016. To get updated information about the drugs covered by WellCare/‘Ohana, please visit our website at www.wellcare.com/medicare or www.ohanahealthplan.com/medicare or call Customer Service at the telephone number listed for your state/plan on the inside front and back cover pages of this formulary.

Every month, our printed comprehensive formulary will be updated. Please contact Customer Service or visit our website at www.wellcare.com/medicare or www.ohanahealthplan.com/medicare for more information.

HOW DO I USE THE FORMULARY?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category “Cardiovascular Agents.” If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 83. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

WHAT ARE GENERIC DRUGS?

WellCare/‘Ohana covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

ARE THERE ANY RESTRICTIONS ON MY COVERAGE?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** WellCare/‘Ohana requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don’t get approval, we may not cover the drug.
- **Quantity Limits:** For certain drugs, we limit the amount of the drug that we will cover. For example, WellCare/‘Ohana provides 18 tablets for 30 days per prescription for rizatriptan 5mg. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, WellCare/‘Ohana requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page I. You can also get more information about the restrictions applied to specific covered drugs by visiting our website at www.wellcare.com/medicare or www.ohanahealthplan.com/medicare. We have posted online documents that explain our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask WellCare/‘Ohana to make an exception to these restrictions or limits, or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the WellCare/‘Ohana formulary?” on page IV for information about how to request an exception.

WHAT IF MY DRUG IS NOT ON THE FORMULARY?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered. You can contact Customer Service at the telephone number listed for your state/plan on the inside front and back covers of this formulary.

If you learn that WellCare/‘Ohana does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by WellCare/‘Ohana. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by WellCare/‘Ohana.
- You can ask WellCare/‘Ohana to make an exception and cover your drug. See below for information about how to request an exception.

WHICH VACCINES DO WE COVER?

Your prescription benefit may cover many vaccines. For details, see the Immunological Agents section. The cost for vaccines varies, depending on the facility where you receive them.

For best coverage, use a network pharmacy.

All commercially available vaccines are covered under Part D, except for those that are covered under Medicare Part B, such as influenza or pneumococcal vaccines.

HOW DO I REQUEST AN EXCEPTION TO THE WELLCARE CHOICE (HMO/HMO-POS), WELLCARE DIVIDEND (HMO/HMO-POS), WELLCARE DIVIDEND PRIME (HMO), WELLCARE ESSENTIAL (HMO/HMO-POS), WELLCARE PLUS (HMO), WELLCARE PREFERRED (HMO-POS), WELLCARE RX (HMO), WELLCARE VALUE (HMO/HMO-POS), WELLCARE ACCESS (HMO SNP), WELLCARE LIBERTY (HMO SNP), 'OHANA LIBERTY (HMO SNP) FORMULARY?

You can ask WellCare/'Ohana to make an exception to our coverage rules. There are several types of formulary exceptions that you can ask us to make.

Initial Coverage Decision Exception

You can ask us to cover your drug even if it is not on our formulary. If your request is approved, the drug will be covered at a pre-determined cost-sharing level. You would not be able to ask us to provide the drug at a lower cost-sharing level.

Utilization Restriction Exception

You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, the amount of the drug that we cover is limited. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Tiering Exception

You can ask us to cover a formulary drug at a lower cost-sharing level if the drug is not on the preferred generic, preferred brand or specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, WellCare/'Ohana will only approve your request for an exception if:

- the alternative drugs included on the plan's formulary would not be as effective in treating your condition;
- the lower cost-sharing drug would not be as effective in treating your condition;
- the additional utilization restrictions would not be as effective in treating your condition and/or;
- the alternative drugs would cause you to have adverse medical effects.

You should contact us to ask us for a formulary exception for an initial coverage decision, a tiering exception or a utilization restriction exception. **When you request any of these exceptions, you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request for a fast review is granted, we must give you a decision no later than 24 hours after we get your prescriber's or prescribing physician's supporting statement.

WHAT DO I DO BEFORE I CAN TALK TO MY DOCTOR ABOUT CHANGING MY DRUGS OR REQUESTING AN EXCEPTION?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover, or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary, or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 93-day transition supply that meets the dispensing instructions (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 93 days you are a member of our plan. If you need a drug that is not on our formulary, or if your ability to get your drugs is limited, but you are past the first 93 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you seek a formulary exception.

If you experience a level of care change (such as being discharged or admitted to a long-term care facility), your physician or pharmacy can call our Provider Service Center and request a one-time override. This one-time override will be up to a 31-day supply (unless you have a prescription written for fewer days).

WELLCARE/‘OHANA FORMULARY

The comprehensive formulary that begins on page 1 provides coverage information about the drugs covered by WellCare/‘Ohana. If you have trouble finding your drug in the list, turn to the Index that begins on page 83.

The first column of the chart lists the drug name. Brand-name drugs are UPPERCASE (e.g., COUMADIN) and generic drugs are listed in lowercase italics (e.g., *simvastatin*).

The information in the Requirements/Limits column tells you if WellCare/‘Ohana has any special requirements for coverage of your drug.

- **NM** means the drug is not available via your monthly mail service benefit. This is noted in the Requirements/Limits column of your formulary. You may be able to receive more than one month’s supply of most of the drugs on your formulary via mail service at a reduced cost share. Please see Chapter 5 of your Evidence of Coverage for more information.**
- **PA** stands for Prior Authorization: Please see page III for details.
- **B/D** stands for Covered under Medicare B or D: This drug may be eligible for payment under Medicare Part B or Part D. You (or your physician) are required to get prior authorization from WellCare/‘Ohana to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, WellCare/‘Ohana may not cover this drug.
- **QL** stands for Quantity Limits: Please see page III for details.
- **LA** stands for Limited Access medication. This medication may be available from certain other pharmacies. For more information, please refer to the Specialty Pharmacy section of your Pharmacy Directory or contact Customer Service at the telephone number listed for your state/plan on the inside front and back cover pages of this formulary.
- **ST** stands for Step Therapy: Please see page III for details.
- ^ = Drug may be available for up to a 30-day supply only.

** You have the choice to sign up for automated mail service delivery. You can get prescription drugs shipped to your home through our network mail service delivery program. You should expect to receive your prescription drugs within 7–10 business days from the time that the mail service pharmacy receives the order. If you do not receive your prescription drugs within this time, please contact us at the telephone number listed on the inside front and back covers of this formulary or visit www.wellcare.com/medicare or www.ohanahealthplan.com/medicare.

DRUG TIER CO-PAYMENT/COINSURANCE AMOUNTS

The WellCare/‘Ohana formulary is divided into five tiers.

- Tier 1: Preferred Generic – Drugs that are available at the lowest cost share for this plan.
- Tier 2: Generic – Drugs that WellCare/‘Ohana offers at a higher cost to you than preferred generics.
- Tier 3: Preferred Brand – Drugs that WellCare/‘Ohana may be able to offer at a lower cost to you than non-preferred brand drugs.
- Tier 4: Non-Preferred Drug – Drugs that WellCare/‘Ohana offers at a higher cost to you than preferred brands.

- Tier 5: Specialty Tier – Some injectables and other high-cost drugs. ^ Indicates specialty drugs are available for up to a 30-day supply only.

Brand drugs may be available in Tiers 3, 4 and 5. Generic drugs are available in all Tiers.

Consult your Evidence of Coverage or Summary of Benefits for your applicable co-pays/coinsurance and deductible amounts.
